

Advanced Vehicle Assemblies

PLEX - Supplier Portal Technical
May 23, 2024

Recommended Browsers

- Compatible browsers with Plex Manufacturing Cloud:
 - Microsoft Edge, Google Chrome, and Mozilla Firefox.
- The recommended browser for label printing is Microsoft Edge.

PLEX Component Host (PCH)

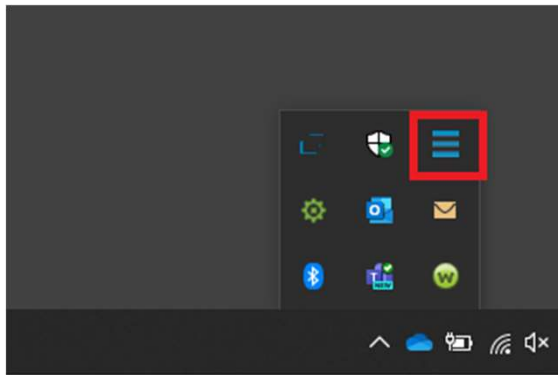

- The Plex Component Host, or PCH, provides the architecture to use specific Plex features including label printing, weigh scale integration, and accessing the Document Control System (DCS).
- Please follow the link to download the Plex Component Host on a device you wish to print labels from:

[Plex Component Host Installation \(plexonline.com\)](https://plexonline.com)

PLEX Component Host (PCH)

- After you install the PCH, you should show the PLEX icon in your task bar.

- Clicking on the Icon will allow you to view the status of the PCH.

ZPL Printer

- PLEX Manufacturing Cloud uses ZPL, or Zebra Printing Language, to print barcoded labels.
- Any ZPL compatible label printer will work to print labels from PLEX. You must also have an active ZPL driver installed on the device in which you are printing from when you add the ZPL printer to the device.
- The ZPL printer that you wish to use must be set as the default printer on the device in which you are printing from.
